If my husband (80 years old) and I (77 years old) I can live off an income that is fixed and decreases because of interests rates, therefore shows no increases each year, then the salaries of the SCANA's top officers listed in the News & Courier are outrageous. Just because they have to keep up with the Jones' and on top of that show earnings of millions, does not mean you have to rob from lower income citizens to put any increase on our back; this is not justified.

Not only will our monthly SCE&G bill increase, our taxes go up to pay our local government's SCE&G bill. Also business have to charge more to cover their SCE&G bill, therefore they have to charge more for what we purchase from them, groceries, etc, etc, etc.

If SCANA doesn't like to requirements the Environmental Kooks have placed on them they protest to them.

You, the above and the O'Bama Administration will eventually cause a collapse in our capitalistic society.

My husband and I stand in protest against this increase SCANA has requested and more so if you approve it.

Respectfully
